The Bouse Considers the Mavai Appro-

Phearublic schools of Ban Francisco are un her discussion and criticion, as well as those of this city. It may be said, indeed, that he e line of critici on employed by this journel. it is found not only with the methhas been added to the high school vidently "ran" by certain projess. Is sextended to baye desiring to learn ers and accountants; on the contrary, comof bricklayers, carpenters, and some ers land accountants there are more than chough." The Gall goes on to say that this superfluous brauch of the superfluous high course has been established at a time to three thousand children are askcan find no room. Could this matter be the bottom it would undoubtedly be

cinted and just as to be worthy of reproducstruction exactly in almost every city. "The protessions, for business and for trades, is too groat. It says, to be nodertaken. The public will all stight the large many the plaintiff the burden of proof that the lattingenous was made knowingly. The house has once or twine during the last incoming stop and private endeaver begin little was passed similar provisions, and once the public property stop and private endeaver begin little secretary world the same thing. But this interest the public passed by a very small consider the bull passed by a very small considerable the bull passed by the bull passed n may be taught to keep bodis, work a tele-agh or run a lawyer's office. The parent ho wants to teach his boy a trade has to find cipies upon which our public school sys-was founded. Visionaries, theorists and inthusiasts have warped the system out of its it was never intended to do, and left undone much that is a vital necessity to the commu-

LIFE NAVING SERVICE

ary contributions, and did its work by colum-ary crews until 1849, when an unexpended Spee mlance of \$5000 from the lighthouse at proprip 1872 the United States extended its life say ug service to Cape Cod, so that the acknow's me almost entirely under government were taken in 1818, when \$10,000 was appropriated by congress for the maintenance of eight regurly equipped with boats and life cars. The service was extended down the coast as far 4 Taxes. Two years later the lighthouse board

son of terrible gales and disastrous wredge di along the Atlantic sonboard and the appallud had to the watablishment of a coast patrol nd competent crews. But from that time (!!! 1873 it was a constant struggle, with insuffito the demands made upon it. In its present form the service was established in 1878 our

lant record. The number of service within the service for the year was \$703,13 35. These flagres for the year was \$703,13 35. These flagres for the year was \$703,13 35. Three flagres will be service for the year was \$703,13 35. Three flag this service. Its apparatus and methods are the most complete and efficient of any ite- taking is hit off not unfairly by the New York those appliances was made at London less 3 car temarks \$2 there is nothing more curious by invilation of the British government, which in political history than the opin way in which attracted great attention. As the service is rethe demograte are discussing the particular be so thoroughly guarded that loss of life will

ter of the City of Columbus off the Massach 1by all the railroads in the country, and the liquor ordinance of that city." Such pervera-enit involves millions of dellars.

The house of representatives has passed an important bill to protect the rural citizen against the swindling achomiss of the speculahaving received notice that such article was patented, shall not be held liable to a suit for damages if the article is purchased merely for his own use and not for manufacture or sale. Attention was called to this subject in this paper some time ago when the democratic state for the protection of Physician Includence that favoring such legislation. In many parts of maintenance will greatly increase their lisconthe country similar demands have been made tent and drive many of them to this country. because of the frequent sale of patented articles, by infringers of patents, to innocent pur-chasers who have thereafter been mulcted in damages by the patentees. It is a right and extended to buys desiring to learn so of business has never here extragaished. But the remedy of the patentee as isosiment the relier of the infringed patentee as isosiment the relier of the infringed article was, it has been thought, insufficient.

It has been deemed necessare to be a steel rails are now made at the kaigar Thousand non-steel works, Pittsburg, for 85 a ten less than iron one-scan be preduced.

OLE NAVY. against the morally isnocent purchaser. But ways rifted the cases with great care and equal equity, where the purchaser was murally mucpent though legally guilty, so as to have im-posed upon the bonest delinquent only the pensity of non-base. A great deal of ennoyance and expense has been occasioned by those who have infringed upon patents and put the people in peril. This bill meets this aspect of the case try thoroughly. It abolishes the common purchaser beware, anys the common law, but penalty if he has made a purchase which leads to illegal use. It also discourages the institu-tion of suits in such cases by saying that "if

is not fair to sak a mechanic who has to tence his dwn son a brade, to pay that a neighbor a son may be taught to keep books, work a tale these hills were debated before, the attorney general projounced them unconstitutional, and o teach his boy a trade has to find it is now doubtful whether they become laws.

I the courts ought to be able to printed the pubboy the lie against patent sharks without going beyond of bookkeeping be provided with a the ordinary rules of court practice, if they the public expense? There are cer- were as intent upon decreeing substantial justive as upon upholding technical forms. But nild be instructed in. To become reas hably apart from its own merits this bill is worthy of effects in these requires a simple course of thotice as one of the many modern instances in which the federal government has taken or luxury, which a doministy may included in if been urged to take a paternal care, oversight a mind to, but it should not indulge in higher branches at the expense of the all government alone, it is true, is r branches at the expense of the states. These are the feeder on which our public school systemed. Visionaries, theorists and have warped the system out of its have rough the system. They have rought the wall. original purpose. They have made it do what protection intended by this bill as in conse-(which encourages the absorption of power in the national government. We called same own to this a few days ago in an article on the pro-taction again. Traiscontinent fraction maker. the national government. We called attention tantain D. A. Lyle, U. S. A., on the cline that shall guide the cit zen in biseducation, his religion, his made of ide; that shall build or Progress and Methods of the United Stades Life religion, his made of inc. that shall build or flaving Service," that the credit for espablisher repair levels to preserve the farnes of Louisiana ng the first life saving service in this quantry i planters; that shall protect the rural entropes belongs to the Massachusetta Humano Society. from swindlers, and make men everywhere virwhich as early as 1782 erected hats in desolate. thous by statute. The people of course have a places along the coast of that state, beginning right to make such changes in the government with Lovell's island in Boston harbor. In first as they desire. We merely call attention to the bost was built at Cohasset in 1807. It ex- the direction public sentiment is taking in orsief for more than half a century of volum.
